With a staff strength of over many highly skilled and qualified software engineers and graphic artists with knowledge and experience in web design, custom animation and graphics, B2B, B2C and other e-commerce websites. At KarmaFirst-Can & Will we are able to provide you with the dedicated resources you need to provide you with a solution to meet and exceed your needs. As you are already on web searching for a company to outsource your work you already know the cost advantage of outsourcing. With a zillion web companies to choose from, finding the one; which provides you desired solutions in your budget is like searching for a needle in stack of hay. Being located in a small town like Satara, it helps to keep infrastructure and human costs low, which ultimately can be passed down to end customers. Being low cost solution does not necessary mean that we compromise on quality and technology, which can best be judged by our portfolio and testimonials. Now the question is are you at the right place? Well just read on&hellip;and decide for yourself. Some of the questions every webmasters fights when he outsources his works are. How on the earth do I know if this company can do it? Well just look around our portfolio and you will get the answer. Besides that we are always ready to answer any questions you have about technology or about your project. 2. How do I know this company is not a con and is going to disappear when I hand over the money? Well just check out our free demo form we will show you 10% of your total work free&hellip; No hidden charges, ZERO, ZIP, NOTHING, nada. I am not comfortable explaining my ideas over mail or Instant Messengers. I like to talk to guy who's working and explain my ideas and I don't want to call long distance to India. Well you can call us on our US Number and explain everything to us. I don't understand Indian accents. You don't wanna worry about that you wont even know the guy you are talking to is an Indian or Yankee or Ausie. Any More questions? Contact Us.
